

## APPLICATION

Power packs type **UHKZ...** are designed to drive and control hydraulic receivers (cylinders and hydraulic motors). They are used in moveable machines as a drive for small presses, lifts and shop machines.

The power pack is intended to operate for short periods of time.

## DESCRIPTION OF OPERATION

Standard version of power pack is composed of the oil tank with essential accessories like:

- oil suction filter
- oil filler
- oil drain plug
- pump assembly (electric motor – gear pump), pressure gauge and the block with output connections.

Standard version of the power pack can be extended upon customer's request with the following systems:

- hydraulic control system according to the individual scheme
- other apparatus and hydraulic machines which are not included in data sheet, prior agreed with the manufacturer
- electric control system.

## TECHNICAL DATA

### Basic information

Hydraulic fluid	mineral oil					
Operating temperature range	-10 up to +70 °C					
<b>Standard fluid filtration</b>	<b>90 µm</b>					
Fluid viscosity range	10 up to 380 mm <sup>2</sup> /s					
<b>Supply voltage for motor</b>	<b>3 x 400V 50 Hz</b> (other, if agreed)					
<b>Supply voltage for directional control valve</b>	<b>24V DC</b> (other, if agreed)					
Tank type	2,5A	5B	10B	12B	3L	5L
Material for a tank	steel				plastic	
Nominal capacity of a tank	2,5 dm <sup>3</sup>	5 dm <sup>3</sup>	10 dm <sup>3</sup>	12 dm <sup>3</sup>	3 dm <sup>3</sup>	5 dm <sup>3</sup>

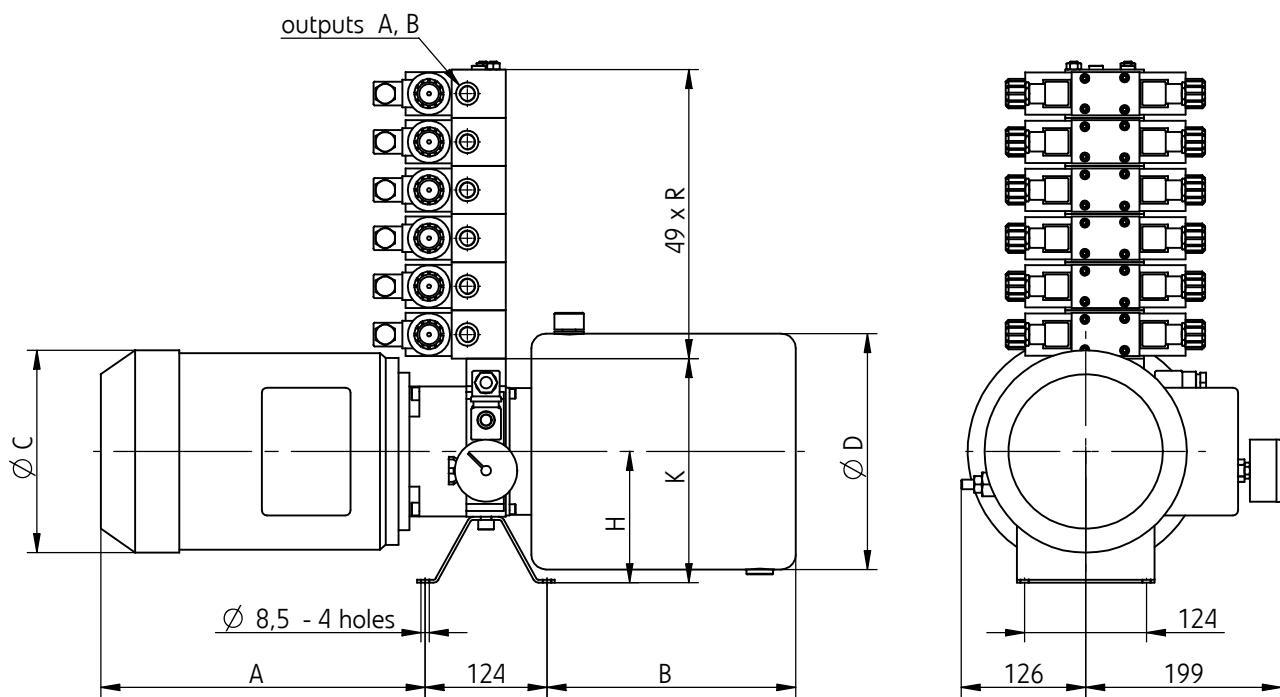

## TECHNICAL DATA

Operating pressure range depending on motor power and type of pump.

## SCHEMES

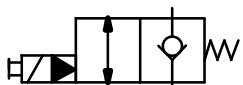

### Hydraulic scheme for power pack

### Hydraulic schemes (options) for directional control valve - pos. 1

option normally-open - designation ...NO...

option normally-closed - designation ...NC...

- 1 - Directional control valve - options\*:  
  - **normally-open** - designation UHKZ...- NO -...
  - **normally-closed** - designation UHKZ...- NC -...

### 2 - Throttle valve - options\*:

- **with throttle valve** - designation UHKZ...- D -...
- without throttle valve - no designation

### 3 - Directional control valve size 6 to be mounted - connections A, B: G 3/8

#### **Note:**

(\* ) - Options showed on the scheme are in bold

## HOW TO ORDER

<b>UHKZ</b>	+	+	+	+	+	+
-------------	---	---	---	---	---	---

### Tank size

steel	2,5A	= 2,5
steel	5B	= 5
steel	10B	= 10
steel	12B	= 12
plastic	3L	= 3L
plastic	5L	= 5L

### Type of pump

G 0,85	= 0,85	G 3,7	= 3,7
G 1,15	= 1,15	G 4,2	= 4,2
G 1,3	= 1,3	G 4,9	= 4,9
G 1,6	= 1,6	G 6,0	= 6,0
G 2,1	= 2,1	G 7,9	= 7,9
G 2,6	= 2,6	G 9,8	= 9,8
G 3,2	= 3,2		

### Motor power

0,37 kW	= 0,37
0,55 kW	= 0,55
0,75 kW	= 0,75
1,10 kW	= 1,1
1,50 kW	= 1,5
2,20 kW	= 2,2
3,00 kW	= 3,0
4,00 kW	= 4,0

### Nominal size for hydraulic elements installed

(applied to elements connections nominal size 6 to be mounted pos. 3 according to the scheme on page 5)

NS6 = 6

### Designed version of power pack

without connection for directional control valve (standard version)	= no designation
with connection for one directional control valve	= R1
with connection for two directional control valves (parallel connection)	= R2
with connection for three directional control valves (parallel connection)	= R3
with connection for four directional control valves (parallel connection)	= R4
with connection for five directional control valves (parallel connection)	= R5
with connection for six directional control valves (parallel connection)	= R6

### Version of directional control valve

(applied to directional control valve pos. 1 according to the scheme on page 5)

normally-open	= NO
normally-closed	= NC

Further requirements in clear text (to be agreed with the manufacturer)

**Succesive version of power pack**

(given by the manufacturer when order confirmed)

= XXXX

**Throttle valve**

(applied to throttle valve pos. 2 according to the scheme on page 5)

without throttle valve

= no designation

with throttle valve

= D

**NOTES:**

Power pack should be ordered according to the above coding.

The type, quantity and placing hydraulic elements (directional control valves, valves and other) must be specified on hydraulic scheme or in other clear way.

Coding example: UHKZ-12-4,2-1,5-6-R4-NO-D-XXXX
